

Release #32

Chain of Command

Just a reminder that Catholic Daughters of the Americas lines of communication operate through the Chain of Command. Court Regents and members should first contact their District Deputy for information. State Circle of Love Chairmen and Special Assignments may also be contacted for specific questions related to their area of responsibility.

Emails that are sent to National Board members are immediately referred to the State Board, who then forwards the email to the District Deputy or Regent of the court. This delays the requested information. National is happy to help but is not your first stop.

The Chain of Command:

- Ensures the person closest to the level with an issue is taking responsibility for helping
- Respects the position of those appointed to help
- Ensures top managers are not bogged down with issues that can be handled by others

Please contact your District Deputy if you have any questions.

Lorine Bakowsky, CA State Regent
